

**ONE-HEADED VARNISH GLAZER DALB-60**

v1

2013/01/23

The DALB-60 type one-headed varnish glazer is meant for glazing flat elements with nitrocellulose, polyurethane, water, and pigmented varnishes. The glazer head rises and turns to the side, which significantly facilitates and speeds up its cleaning when changing varnish. Thanks to its reliability, ability to glaze with various varnishes and its easy servicing, the glazer can be very useful in small factories.

**TECHNICAL AND OPERATIONAL DATA:**

Maximum element width	mm	<b>600</b>
Minimal element length	mm	<b>300</b>
Amount of varnish spread	g/m <sup>2</sup>	<b>110 – 700</b>
Conveyor speed	m/min	<b>25 – 100</b>
Conveyor height	mm	<b>850</b>
Overall dimensions (length x width x height)	mm	<b>3600 x 1400 x 1500</b>
Mass	kg	<b>400</b>
